

Green Science Skin Care Ritual

Jump-Start the benefits of Green Science with Perfecting Cleanser and Replenishing Toner: our new power-prep steps.

STEP ① *New* Green Science Perfecting Cleanser
A creamy emulsion removes makeup and impurities.

In the a.m. and p.m., massage gently in to damp skin. Add warm water to work into a milky lotion. Remove with damp shammy cloth. Rinse well.

STEP ② *New* Green Science Replenishing Toner
A silky toner that refines pores and gently exfoliates with naturally derived salicylic acid and glucosamine while moisturizing with aloe and ceramide 3.

After cleansing in the a.m. and p.m., blot face with towel. Gently press a few drops of toner into skin with clean fingertips or with a cotton pad.

STEP ③ Green Science Lifting Serum

Smooth on face and neck a.m. and p.m. to help skin boost its natural collagen production, giving skin a more lifted appearance.

STEP ④ Green Science Firming Face Creme

Apply to facial and neck areas a.m. and p.m. to help improve visible skin firmness, moisturize and strengthen skin's barrier function.

STEP ⑤ Green Science Firming Eye Creme

Gently smooth under and around the eyes to moisturize, help smooth fine lines and reduce the appearance of puffiness and undereye circles.

**TARGETED
 TREATMENT** ⑥

Green Science Line Minimizer

After cleansing and toning in the p.m. apply this targeted treatment directly to lines and wrinkles on face, neck and décolleté. Gently press into skin. Follow with Green Science Lifting Serum, Firming Face Creme, and Firming Eye Creme.
